Not the ones

Those we have right now.
All of them.

Chairman's Message

“ We are born weak, we need strength; helpless we need aid; foolish we need reason. All that we lack at birth, all that we need when we come to man's estate, is the gift of education. ”

-Jean Jacques Rousseau.

Management of the BITS Group of Institutions has always been aware of spreading quality education, which basically starts with the education at the primary level. Children today are always under stress and strain of routine homework given to them at school. Similarly heavy school bags put unnecessary burden of books and note books on their tender shoulders. Our main emphasis in BITS International School is to lessen the burden of bag and homework.

Educationally backward area of Bhiwani was badly in need of such a school, which could impart education in a different manner. I hope BITS International School will fulfil the needs of young students. Moreover, a child will have complete unified education from the formative years till the ultimate degree to exhibit the innate potential that can be best utilised in the betterment of society .
